DERMFEST 2013

16 NOVEMBER
HILTON, MALTA

Dear friends

One again it is my pleasure to invite you to join us for this year's DermFest. The programme chosen reflects common dermatological and venereological challenges in daily practice, the strong links of our speciality with internal medicine, in particular rheumatology and endocrinology, and a preview of next year's IUSTI European Congress which will seek to address some realities that merit much greater awareness and action.

The Minister of Health, Dr G Farrugia had graciously accepted my invitation to attend and address the meeting.

My thanks are due to all speakers, the backroom organisers in particular Dorian Schembri, our sponsors who have stayed with us in these difficult economic times, and last but not least, you the audience who by your presence encourage MADV to go from strength to strength with high quality academic meetings.

JOSEPH PACE

President
